

State program "Digital Development of Belarus" for 2021 - 2025

The Decree of the Council of Ministers of the Republic of Belarus dated February 2, 2021 No. 66 approved the State Program "Digital Development of Belarus" for 2021 - 2025 - the main practical tool for introducing advanced information technologies in the national economy and the sphere of society in the coming period.

The state program provides for the implementation of measures for the creation (development) of a modern information and communication infrastructure, the introduction of digital innovations in the sectors of the economy and technologies of "smart cities", as well as ensuring the information security of such solutions (currently there are 82 events).

The improvement of the e-government infrastructure will continue through the creation (development) of a number of interdepartmental information systems that ensure the implementation of state electronic services.
